Steve Mirsky

Editor and Columnist for Scientific American

Steve Mirsky has been an editor and columnist for *Scientific American* since 1995. He received a Master's Degree in chemistry from Cornell University in 1985, after which he was awarded a Mass Media fellowship by the American Association for the Advancement of Science to work that summer as a science journalist at WSVN-TV in Miami. This critical event removed him from the lab, to the relief of the Ithaca Fire Department. He freelanced for numerous magazines before joining the staff of *Scientific American*. In 2004-2005, he was a Knight Science Journalism Fellow at MIT. He started the *Scientific American* podcasts in 2006, which is why it's okay that to this day he spends most of his working hours in front of a microphone in his basement. In 2009 he received an honorary doctor of science degree from his alma mater, Herbert H. Lehman College of the City University of New York.

Virtual Meeting

Are you unable to join us in Chicago? Then the SSP Virtual Meeting is for you! This year we are offering a virtual option that provides the perfect opportunity for industry professionals who are unable to travel to the SSP 40th Annual Meeting in Chicago to view selected sessions in real-time throughout the three-day event. Virtual attendees can access critical educational content to enhance their professional development and stay current on the latest industry topics without the time and expense of travel. While there is no substitute for attending the SSP Annual Meeting in person, we recognize that not everyone has the opportunity or flexibility to travel, and offer this alternative to ensure the widest possible dissemination of our programming.

The SSP Virtual Meeting will be streamed live in real-time May 30 – June 1, 2018. In addition to all keynote and plenary sessions, virtual attendees will be able to participate in five additional sessions specially selected by the Annual Meeting

Program Committee. Included sessions are designated by this symbol in the Conference Schedule. **V** Virtual attendees are invited to submit questions to speakers during these sessions via a live chat facilitator. A video stream of both the speaker and any slides will be broadcast so you'll feel like your right in the room!

Participants can also chat in real-time with other virtual attendees for online networking via the virtual meeting platform. If interruptions pull you away from your desk during an important session, you can revisit a missed session at a more convenient time up to 60 days after the meeting. Recordings will be posted within a few days. The SSP Virtual Meeting is substantial value when you consider the savings of travel, lodging and the reduced registration rate. An affordable group rate is available for organizations that wish host an SSP Annual Meeting viewing party! See enclosed registration form for rates.
